Applied Java Programming (Paperback)

By Jr. Edward Hill

iUniverse, United States, 2007. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.This Applied Java Programming text book is designed teach Applied Java Programming integrated with simple data structures, HTML essentials, PHP script language essentials, and MYSQL essentials. All exercises are programming problems. Programming problems are used as exercises to enforce a programming paradigm. A high percent of learning to program is highly correlated with the practice of designing and implementing programs for specific requirements. The translator or compiler will enhance the student knowledge through the trail and error process of removing errors from their programs. Emphasis is on defining Java constructs and their use in applied programming. Students are encouraged to program all the exercises at the end of each Chapter. Also students are encouraged to program their own applications to enhance their knowledge base. The idea is to program as many applications as possible using various Java constructs to improve programming skills in the Java programming language, HTML, PHP, and MySQL in implementing applied applications. Emphasis is placed on programming applications. To enforce this paradigm Chapters are organized to maximize the learning process in implementing applied applications.
