New Trends in the Diagnosis and Therapy of Non-Alzheimer's Dementia

By Jellinger, Kurt A. / Windisch, Manfred

Book Condition: New. Publisher/Verlag: Springer, Wien | Dementia is an acquired disorder of higher cerebral functions and cognition. Because of increasing life expectancy dementia poses a major health and socio economic problem. Alzheimer's disease accounts for 70-90% of mental decline in the elderly. Degenerative non-Alzheimer's dementi as are responsi ble for 7-30%. These include a variety of disorders clinically characterised by progressive cognitive dysfunction often combined with focal neurological def icits, e.g. Parkinson-plus syndromes, Lewy body dementia, lobar and multisys tem atrophies, other neurodegenerative disorders, and prion diseases. Often it is difficult to distinguish these illnesses from Alzheimer's disease and vascu lar dementia. In spite of considerable progress in molecular genetics, biochemistry, and neuropathology, the classification and pathogenesis of non-Alzheimer's dementias are still debatable. Diagnosis is frequently made only at postmor tem. Because disease markers are not available for the majority of non Alzheimer's dementias, consensus criteria for the identification of such diseas es are warranted. These criteria could serve at a basis for early diagnosis and distinction from other dementing disorders. | Structural basis of dementia in neurodegenerative disorders.- Cytoskeletal pathology in non-Alzheimer degenerative dementia: new lesions in Diffuse Lewy body disease, Pick's disease, and Corticobasal Degeneration.- The neuropathologic...

Reviews

A very wonderful book with lucid and perfect answers. It is probably the most incredible book i have study. Its been designed in an exceptionally simple way and is particularly just after i finished reading through this publication by which in fact transformed me, alter the way in my opinion.

-- ***Macey Schneider***

I actually started out reading this article ebook. This is for those who statte that there had not been a worth reading. Its been developed in an extremely easy way and it is just after i finished reading this book in which in fact modified me, change the way i really believe.
