Reviews

This pdf is indeed gripping and exciting. It is writter in easy words and phrases and not confusing. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Not illustrated. 1899 Excerpt: .of the existence of drugs whose active principles can not be isolated, it would perhaps be wiser to standardize with reference to the assayed crude drug in all instances, as by adopting the fluid extract and abstract for all plants used internally. 3. All preparations for external use, including ointments, plasters, liniments and certain solutions, should be of safe, maximum strength for application. 4. For ointments, there should be duplicate or triplicate preparations, of the same active content but differing in base, so as to allow an organic fat and a mineral salve to toe used at will, as well as, perhaps, an absorptive ointment containing wool-fat. 5. The physician should never be compelled to consult a pharmacopoeial list to determine whether such and such a preparation of any particular drug be officinal. Every galenical should be officinal for every drug to which it is applicable. 6. Unless required by certain physical and chemical properties, there should be no galenicals or definite simple substances, whether inorganic or organic, with the possible exception of ointments. Whenever volatility or deliquescence or dangerous caustic properties require the use of a solution, it should be as concentrated as possible. This would apply to ammonia, hydrochloric acid, formalin, zinc chlorid, etc. 7. A wider range of vehicles should be adopted. Chocolate, in particular, should be more extensively used. Syrupsx and other vehicles should be simply vehicles, of indefinite dosage. Syrups of active drugs should be abolished, palatable combinations being prescribed extemporaneously...
